**Our Added-Value Services make our customers more Cost-Effective & Competitive.**

- Frees up inventory space & cash
- Reduces labor & maintenance
- Eliminates repeat testing
- Reduces production-time turn around
- Maximizes Supply Chain Integrity

- 1. On-site Product Weighing & Repacking:** Materials can also be repackaged into desired containers and weighed into precise batch sizes in our compliant and validated repacking center.
- 2. On-site Product Sampling:** Mutchler - IMCD has a validated GMP sampling room and procedures in order to provide tail-gate, pre-shipment samples of raw materials.
- 3. Release Testing Services:** Mutchler - IMCD can also provide full-release testing services for USP, EP and JP monographs via the third party laboratory of your choice.
- 4. Excipient Supplier Sample Dispatch Center:** For manufacturers of Excipients, Mutchler - IMCD offers sampling-dispatch services answering requests and sending samples to users around the world. Samples are taken, packaged and consolidated under a validated protocol and then forward and with all the required documentation to the final destination.
- 5. Vendor Managed Inventory (VMI):** Storage and consolidation of your approved and tested Excipients for immediate transfer into production. Mutchler - IMCD AVS is an extension of the pharmaceutical manufacturer facilities with validated QA protocols.
